1. DESCRIPTION OF PRODUCT

Singlife Shield Starter is a medical insurance plan covering the life assured for costs associated with:

- hospital stay,
- surgery, and
- selected outpatient treatment.

If your policy is integrated with MediShield Life, it adds to the MediShield Life tier operated by CPF (Central Provident Fund) Board and gives extra benefits for those who would like more cover and medical insurance protection. For more details on MediShield Life and how it works with Singlife Shield Starter, you can visit <https://www.medishieldlife.sg>.

All benefits only pay reimbursement for reasonable expenses for necessary medical treatment received by the life assured due to illness or injury and depend on:

- the terms and conditions in your policy,
- the limits shown in the benefits schedule, and
- the exclusions in your policy.

Treatment must be provided by a hospital or licensed medical centre or clinic, all of which must be accredited by MOH to take part in the MediShield Life scheme.

2. PLAN FEATURES AND BENEFITS

2.1. Comparison of Benefits between MediShield Life and Singlife Shield Starter plan

A Singlife Shield Starter policy is made up of 2 parts:

- the MediShield Life portion provided by the CPF Board, and
- additional private insurance coverage provided by us.

The full Singlife Shield Starter premium comprises the MediShield Life premium and your Singlife Shield Starter's additional coverage premium.

In the event of hospitalisation / medical treatment, your final payout will comprise the MediShield Life payout and the Singlife Shield Starter additional coverage payout. For example, if the payout computed based on the full Singlife Shield Starter benefits is S\$2,000, and the payout based on MediShield Life benefits is S\$500, the policyholder will receive S\$2,000, which comprises S\$500 from the MediShield Life payout, and S\$1,500 from the Singlife Shield Starter additional coverage payout. In the case where the payout based on MediShield Life benefits is higher than that from the Singlife Shield Starter benefits, the eventual payout will be based on the MediShield Life benefits.

2. PLAN FEATURES AND BENEFITS (continued)

Footnotes (cont'd)

⁷ Inpatient palliative care service benefit covers charges the life assured has to pay for inpatient palliative care services from a MOH-approved Inpatient Hospice Palliative Care Service (IHPCS) provider. The life assured must be admitted for inpatient palliative care service by a doctor, according to the relevant MOH guidelines.

⁸ Continuation of autologous bone marrow transplant treatment for multiple myeloma benefit covers charges the life assured has to pay for continuation of autologous bone marrow transplant treatment for multiple myeloma, as an outpatient. These include:

- consultation charges,
- clinical and lab investigations,
- consumables, and
- chemotherapy and prescribed medication,

incurred as a result of the following treatments:

- stem-cell mobilisation
- harvesting of healthy stem cells
- pre-transplant workup
- use of high dosage chemotherapeutic drugs to destroy the cancerous cells
- engraftment of healthy stem cells
- post-transplant monitoring

Singlife Shield annual deductible applies for continuation of autologous bone marrow transplant treatment for multiple myeloma. Subsidised patients will follow the inpatient deductible for Class C and non-subsidised patients will follow the inpatient deductible for Class B2.

⁹ Please refer to appendix A for the list of serious pregnancy and delivery-related complications covered under inpatient hospital treatment benefit. The complications must be first diagnosed by a registered obstetrician after a waiting period of 10 months. Please note that delivery charges are not covered, except in the event of caesarean section with hysterectomy.

¹⁰ Outpatient cancer drug treatment benefit covers the charges the life assured has to pay as an outpatient at a hospital or cancer treatment centre registered with the MOH or approved by us for cancer drug treatment that are listed in the Cancer Drug List / CDL. Treatments are defined as drug-indication pairs, as described in the CDL: <https://go.gov.sg/moh-cancerdruglist>.

Outpatient cancer drug treatments are only claimable under your policy if used according to the clinical indications specified on the CDL (as at the date of treatment), unless otherwise stated in your policy. MOH may update the CDL from time to time.

For each primary cancer, if:

- the CDL treatment involves more than one drug, we allow drug omission or replacement with another CDL drug with the indication “for cancer treatment”, only if they are due to intolerance or contraindications. In such cases, the claim limit of the original CDL treatment will continue to apply; or
- multiple cancer drug treatments are administered in a month, and any of the CDL treatments have an indication that states “monotherapy”, only CDL treatments with the indication “for cancer treatment” will be claimable in that month. Otherwise, the following will apply:
 - (a) If more than one of the cancer drug treatments administered in a month have an indication other than “for cancer treatment”, only CDL treatments with the indication “for cancer treatment” will be claimable in that month.
 - (b) If one or none of the cancer drug treatments administered in a month has an indication other than “for cancer treatment”, all CDL treatments will be claimable in that month.

We will pay up to the highest limit among the CDL treatments that are claimable in that month.

If a life assured is receiving treatment for multiple primary cancers, you may apply to MOH and us for a higher claim limit, subject to prevailing terms and conditions. The life assured's doctor(s) must submit the application form to MOH and us to assess the MediShield Life and Singlife Shield Starter Plan coverage respectively. If your application is approved, we will pay up to the sum of the highest limit among the claimable CDL treatments for each primary cancer in that month.

For avoidance of doubt, for CDL treatments, the indications refer to the clinical indications of the drug as specified in the CDL on MOH's website <https://go.gov.sg/moh-cancerdruglist>. Non-CDL treatments will be considered as having an indication other than “for cancer treatment”.

Non Cancer Drug List / Non-CDL treatments means cancer drug treatments that are excluded from the Cancer Drug List and classified as Non-CDL treatments in the Non-CDL Classification Framework developed by the Life Insurance Association, Singapore, as set out in <https://www.lia.org.sg/media/3553/non-cdl-classification-framework.pdf>.

The cancer drug treatment benefit limit is based on a multiple of the MediShield Life claim limit for the specific cancer drug treatment.

Please refer to the Cancer Drug List / CDL on the MOH website: <https://go.gov.sg/moh-cancerdruglist> for the MediShield Life claim limit on the applicable cancer drug treatment.

¹¹ Outpatient cancer drug services covers the charges the life assured has to pay for cancer drug services for outpatient cancer drug treatments. The services are not required to be specific to treatments on the CDL and are payable even if they were for a non-CDL treatment.

These include:

- consultations,
- scans,
- lab investigations,
- treatment preparation and administration fee,
- supportive care drugs (e.g., for pain/nausea), and
- blood transfusions,

as long as these are part of cancer drug treatment.

We also cover charges incurred after the final cancer drug treatment session (for example, consultations, tests and scans) under the cancer drug services benefit, only if the charges are part of the final review of the cancer drug treatment regime.

2. PLAN FEATURES AND BENEFITS (continued)

The cancer drug services benefit does not cover:

- radiotherapy services (covered under radiotherapy treatments), and
- any charges incurred before the cancer is diagnosed, after the cancer has gone into remission or once the course of cancer drug treatment has ceased.

If a life assured is receiving cancer drug services for multiple primary cancers, you may apply to MOH and us for a higher claim limits, subject to prevailing terms and conditions. The life assured's doctor(s) must submit the application form to MOH and us to assess the MediShield Life and Singlife Shield Starter Plan coverage respectively.

If your application is approved, we will pay up to a maximum of twice the claim limit for cancer drug services even if the life assured receives concurrent treatment for more than 2 primary cancers within the same policy year.

The cancer drug services benefit limit is based on a multiple of the MediShield Life claim limit for cancer drug services. Please refer to the MOH website: <https://go.gov.sg/mshlbenefits> for the MediShield Life claim limit for cancer drug services.

- ¹² Multiple primary cancers are defined as two or more cancers arising from different sites and/or are of a different histology or morphology group.
- ¹³ Long-term parenteral nutrition benefit covers charges the life assured has to pay for parenteral nutrition bags and consumables necessary for the administration of long-term parenteral nutrition. The life assured must meet the clinical criteria for long-term and home parenteral nutrition covered under MediShield Life.

- ¹⁵ Preferred Medical Provider(s) refers to the list of approved medical providers (e.g., panel specialist in a private hospital for inpatient hospital treatment, doctors in a public hospital, etc.), which may be found at <https://singlife.com/medicalspecialists>, as updated by us from time to time.
- ¹⁶ Singlife Shield Starter annual deductible applies to all claims made under your policy except for all major outpatient treatments.
- ¹⁷ Claimable amount is the:
- claim limit in the table, or
 - amount after adjusting the charges for pro-ration (if needed), whichever is lower.
- ¹⁸ Payouts are subjected to the policy year limit, regardless of individual benefit limits.

2.2. Premium Rates

The premium is based on the life assured's age next birthday and subjected to GST at the prevailing GST rate.

We may deduct your premium from the designated MediSave account according to the MediShield Life Scheme Act and Regulations.

You must pay the premium or any part of it in cash if:

- the premium you owe is more than the maximum Additional Withdrawal Limit (for Singapore citizens or Singapore permanent residents) or MediSave Withdrawal Limit (for foreigners) set by the CPF Board,
- there are not enough funds in your MediSave account to pay the premium due, or

You and the life assured must always disclose to us completely and truthfully all material facts and circumstances that may affect our decision whether or not to:

- cover the life assured, or
- add any further terms and conditions on your policy.

This applies to all information given to us for our assessment of your application for cover.

If you do not give us this information or misrepresent any information, we may choose to:

- declare your policy "void" from the cover start date or the last reinstatement date (whichever is applicable), or
- end the cover for the life assured, and either refund you:
- all premiums paid to us if you have not made any claim under your policy, or
- the premium paid to us in the first policy year immediately following the policy year in which you made the last claim under your policy,

If the life assured is a Singapore citizen or a Singapore permanent resident, the life assured will continue to be covered under MediShield Life without any exclusion.

3.5. Upgrading or Switching of Plan

The life assured can only have one Integrated Shield Plan. Once this policy commences, the life assured's previous Integrated Shield Plan (if any) will be automatically ended. Where applicable, the life assured's health will be assessed by us. If the life assured is not in good health, we may:

- decline your application, or
- not provide the life assured with certain benefits.

If the life assured is currently holding an Integrated Shield Plan with us and is changing his plan, he may not be given the enhanced benefits due to his existing medical conditions.

If the life assured is currently holding an Integrated Shield Plan with another insurer and is switching to this plan with us, and he has existing medical conditions that are currently covered by the existing plan, he may lose coverage for his existing medical conditions.

Downgrade of the life assured's plan is not available. In the event that you cannot afford, or do not wish to continue paying the premiums for the life assured's Integrated Shield Plan, you can cease the life assured's Integrated Shield Plan. If the life assured is a Singaporean citizen or Singapore permanent resident, regardless of your decision, the life assured will continue to be covered by MediShield Life for life without any exclusion.

- there is incorrect or incomplete information in your application documents, or any information or document given to us.

Other than the above circumstances, we may change the benefits, cover, premiums or terms and conditions of your policy by giving you at least 30 days' notice before we do so.

3.7. Cancel Your Policy

You may cancel the policy with effect from any renewal date by giving us at least 30 days' written notice of your intention not to renew your policy. The life assured's cover under your policy will end on the renewal date.

You may also cancel your policy during the policy year and after the free look period by giving us at least 30 days' written notice. We will refund you the pro-rated premium for the unexpired period of cover.
